## EXPERIENCE

### Data Analyst Bootcamp - Generation

Feb 2024 – April 2024

An intensive 12-week programme aimed to launch your career as a data analyst. Gain essential skills in data interpretation and problem solving, with the opportunity to take the Microsoft PL-900 certificate.

- Foundational knowledge in Excel, Python, SQL, and Power BI
- Took a proactive approach to learning and seeking new datasets
- Demonstrated strong organisational skills by prioritising tasks, making plans and setting SMART goals

### Assessment Centre - Enterprise Rent-A-Car

Oct 2017 – Dec 2017

Successfully progressed to the final stage in a Dragon's Den style hiring process, where candidates are evaluated through a series of tasks. Notable achievements include:

- Demonstrated exceptional negotiation skills by successfully bartering with local shop owners, ultimately trading up from a paper clip to a fashion dress worth £40
- Organised and executed a bake sale in front of Sheffield University Library generating £60 in revenue.

## WORK EXPERIENCE

### Warehouse Operative – Gear4music, York

Sept 2020 – Dec 2020

- Managed inventory tracking system to ensure accurate recording of stock levels
- Communicated effectively with supervisors and team members providing clear and concise reports on inventory levels
- Proactively assumed responsibilities such as taking delivery of goods, recording stock levels and ensuring unloading of vehicles was completed on time
- Adapted quickly to the inventory tracking system and procedures for storing items

### Kitchen Crew Member - McDonald's, York

June 2017 – August 2017

- Quickly assumed various roles including operating the grill, preparing food and managing food stock levels
- Took initiative in training and mentoring new members struggling with their tasks
